SKILLS

- **Programming:** Python, JavaScript, TypeScript, Java
- **AI / LLM:** LangChain, LangGraph, FastMCP, RAG, DeepEval, Langfuse, Claude & OpenAI APIs
- **Data:** pandas, PostgreSQL, MySQL, BigQuery, MongoDB, Firestore
- **Backend:** FastAPI, Express.js, Prisma, SQLAlchemy, Alembic
- **Frontend:** HTML, CSS, React, Next.js, Angular
- **DevOps / Cloud:** Docker, Git, GitHub Actions, GCP, Render, Azure, Databricks
- **Testing:** pytest, Vitest

WORK EXPERIENCE

Aiii Marketing
Mar. 2026 - Aug. 2026

AI-native software startup (CRM, healthcare & pharma), ~50 employees
Taipei, Taiwan

Data Engineering Intern, 40h/week

- Redesigned a clinic's AI customer service from single RAG into a LangGraph multi-agent system on an on-premise LLM, with context engineering and DeepEval evaluation.
- Developed a Text2SQL pipeline that lets CRM users query data in natural language, exposed via REST API and MCP for AI clients.
- Engineered data pipelines that structure LLM-extracted insights from customer conversations into PostgreSQL via SQLAlchemy, with JSON schema validation of LLM outputs.
- Maintained the company's CRM system in TypeScript and developed new frontend features for client-facing workflows.
- Refactored a client's BigQuery data service from gRPC to FastAPI and maintained monthly reporting systems for multiple clients.

National Police Agency, Ministry of the Interior
Sep. 2025 - Feb. 2026

Military Service
New Taipei, Taiwan

Institute for Information Industry (III)
Sep. 2024 - Aug. 2025

Government-funded IT research institute, ~2000 employees
Taipei, Taiwan

Data Engineering Intern, 20h/week

- Architected a web app that generates trend reports from daily news by integrating internal databases, LLM APIs (Claude, OpenAI) and Google Sheets; the solution was later commercialized by the institute.
- Deployed an automated newsletter service that summarizes scraped news with LLMs and delivers daily digests to subscribers on schedule.
- Developed Python data pipelines processing 1M+ Amazon product records with pandas, providing structured data for analytics dashboards.
- Interpreted for Japanese client visits and delivered business presentations in Japanese, supporting a partnership with the Japan Research Institute.

C2L2 Lab, Department of Economics, NTU

Sep. 2024 - Aug. 2025
Taipei, Taiwan

Applied Economics and Data Science Research Lab, ~40 members

Research Assistant, 8h/week

- Co-authored (2nd author) TW-LegalBench, the first benchmark evaluating LLMs on Taiwanese law, accepted at ICAIL 2026 (long paper) and presented at the NVIDIA GTC Research Summit Taipei.
- Created an automated pipeline converting official exam PDFs into 16,000+ structured questions across 18 professional exam categories, forming the benchmark's core dataset.
- Translated the benchmark dataset, including court judgments, into English at scale using the Claude Batch API for cost-efficient asynchronous processing.

EDUCATION

University of Mannheim

Sep. 2026 - Expected Aug. 2028
Mannheim, Germany

M.Sc. Business Informatics

Relevant Courses: Large-Scale Data Management, Advanced Software Engineering, AI Deployment and Operations, Web Data Integration

Double Degree Program

National Taiwan University (NTU)

Sep. 2020 - Jun. 2025
Taipei, Taiwan

B.A. Economics

- CGPA: 4.12 / 4.30
- Relevant Courses: Linear Algebra, Database Management, Operations Research (Gurobi), Data Science and Social Inquiry, Programming and Data Collection
- Awarded **NTU Presidential Award 2021**: a merit-based scholarship for academic excellence, social care, and extracurricular performance.

Waseda University

Apr. 2023 - Jul. 2024
Tokyo, Japan

B.A. Global Political Economy

- CGPA: 3.64 / 4.00
- Certification Program in Data Science - Intermediate Level
- Participated in **Asian Future Leader Scholarship Program** and awarded merit-based scholarship.

SOCIAL INVOLVEMENT

Make A Circle English Camp

Dec. 2021 - Dec. 2022
Hualien, Taiwan

Coordinator

- Co-developed and pitched an English camp project addressing rural education inequality under a Ministry of Education youth program, securing a NT$30,000 grant after interviewing 10 international education organizations.
- Coordinated 14 international and local volunteers and designed 7 lesson plans, achieving 100% volunteer satisfaction and a 4.5/5 rating on student learning outcomes.
